| Corrosion resistance | Meets the requirements of BS EN 1670: 2007 Grade 5 (480 hours) |
| Operation | Tested to 25,000 cycles |
| Material Specification | |
| Handle: | High quality Zinc for all finishes |
| Coatings: | Hardex Chrome, Hardex Graphite, Hardex Gold and Antique Black |

| Maintenance |
|--|
| For continued protection of the quality finish and appearance, we advise routine cleaning of all our external hardware. We recommend wiping it with a clean cloth soaked in warm water and mild detergent every month. Please refrain from using heavy-duty cleaners, containing Chlorine or Potassium. Moving parts should also be lightly lubricated using a light non-acidic mineral oil (e.g., "3 in 1") at least twice per year. The product may need to be adjusted and fixings tightened to ensure a satisfactory operation. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants. |

All dimensions are in mm and are nominal. Fab&Fix reserves the right to change specification without notice. It is the responsibility of the window manufacturer to ensure that the finished product meets any required safety and performance specification.

| Packaging |
|---|
| Handles |
| Individually bagged with screws and care instructions. 40 handles in an outer box. |
